Team EPA,

Thank you!! That was so incredibly useful and we look forward to many more fruitful (pun intended) interactions with you. In addition to the presentation, I think (but not confident) these were the two additional documents you gave Patrick, right? Just want to share with the wider team.

Also, I really liked your idea Anna of pulling together Q&As on glyphosate for Congress that are less bureaucratic speak and more banana images. ;) I will talk to ONDCP (because I know they have a good start) and see if we can start a document that we then run by you.

Anyway, just wanted to sincerely thank you for all the knowledge and wisdom you imparted today. I feel 1000% smarter, so thank you! You are all welcome any time (yes, even Greg!)

Best,
Paloma

I did! I reached out to her Coqui and Eric at ONDCP to invite them. Coqui said someone from ONDCP would come, but they were trying to figure out who. I have to follow-up with her this week.

I just remembered that Nita Roncone had asked months (and months) ago to be included in this. Did you reach out to her? (I haven't talked to her in quite a while).

Dana/Anna,

Just wanted to make sure we were still on for this briefing next week- November 20th at 3PM. I also wanted to follow-up with a few additional logistical details. 1. Please bring a government issued ID. 2. Will you be using a powerpoint presentation? If so, can you send it in advance so I can transfer it to our system, please. 3. I need a final head count to ensure I have enough escorts for you all. Really appreciate you all agreeing to do this – Patrick is really looking forward to it and our Mex team decided to join as well, so you are going to have a full house. Lastly, since our location is a little tough to find – I am sending you a map that hopefully will help you find the entrance to the building, but I will be on standby on my cell in case you get lost.

Best,
Paloma
